Projects

UI Design

🔗 <http://surl.li/yyppgij>

- **UI Design:** The project focuses on making a nice-looking interface with HTML, CSS, and JavaScript.
- **Contact Form:** It has a form that sends a name and email to Getform with a POST method.

Movie review

🔗 <https://movie-review-flame.vercel.app/>

- **Comprehensive Movie Data:** The web app handles a dummy array with ten movie entries.
- **User Interaction:** Users can like or dislike movies, allowing for interaction with the data.
- **Popularity Tracking:** The app tracks likes and sorts movies by popularity, highlighting the most liked ones.

Recipe website

🔗 <https://recipe-website-mu-seven.vercel.app/>

- **Search Functionality:** The recipe website uses a food API, allowing users to search for food items by name and display the results.
- **Cart and Purchase Features:** Users can add items to their cart, view the total price, and receive an 'Order Confirmed' message upon clicking 'Buy Now'.

donation-dynamics-project.

🔗 <https://donation-dynamics-project.vercel.app/>

- **Secure User Authentication** with MongoDB
- **Flexible Donation Management** and cart functionality
- **Data Storage** for user info and donations

Volunteering

NavGurukul Foundation for Social Welfare
Discipline coordinator

Bangalore, Karnataka

At NavGurukul, I served as the discipline coordinator for four months, managing class attendance, granting permission for campus departures, and overseeing campus meetings.

NavGurukul Foundation for Social Welfare
Information Technology

Bangalore, Karnataka

At NavGurukul, I held the IT position for six months, where I managed laptop data, provided laptops to new students, resolved issues, and maintained the inventory sheet for all laptops.
